

## 2017 FIELD UMPIRING

Match preparation starts the night before, gear, match plan.

Know the rules and keep it simple. major and obvious.

Work rate especially in mid zone

Teamwork chop outs.....

Positioning- side on 20m – 25m away

Working angles when ball travels towards boundary

3 umpire systems tap thru and shadowing

3-point triangle end zone assist all umps umpiring.

Ball leaving end zone end zone ump must square up.

Taking the play 45m into end zone

Running wider, deeper and longer into forward 50 in 2 umpire systems

Set kick control vital especially out on wing- deep into pockets

Must clear protected area 5m

Must nominate 1 ruckman from each team at every throw in and ball up

Forward observation

Don't get caught on hot spot - pick a side

As mid zone for kick in get down b/n arc and back of square

Movement at stoppages **FIND THE FOOTY**

Getting out to 15m after throw up

Whistling up play after 6-7 sec at set kick apart from shot on goal

Paperwork, evaluation, coachability, implement feedback

Enjoy
